Roy F. Baumeister One of the editors of this textbook belongs to a social program that was created a few years ago. When he asked his new departmental colleagues why they decided to add social psychology to a department that was already large, happy, and successful, they had two answers. First, they did a survey of the top-ranked

Eminent social scientist Roy F. Baumeister stumbled unexpectedly upon this fundamental aspect of human nature. To find out why financial losses mattered more to people than financial gains, Baumeister looked for situations in which good events made a bigger impact than bad ones. But his team couldn't find any.

Where most scientists look at human nature as what comes first and culture as what comes next, social psychologist

Baumeister suggests that culture is actually part of human nature - that human nature is 'hardwired' for culture. Unlike other species who are, at best, social animals, we are truly cultural animals.
