In the Construction Technology bachelor
degree program, students are trained to

enter a professional field which requires designing, planning, construction, and management of infrastructure.

Construction engineers are a hybrid between civil engineers and construction managers. Coursework focuses on the design as well as the construction ...

Construction Management & Civil Engineering Technology

In 2019, the engineering and construction industry saw overall market growth despite cost pressures, labor shortages, and trends toward fixed-bid projects. We originally forecasted this trend would persist into 2020, but the COVID-19 pandemic caused a shift in project timelines and a drop in the sectors' labor and employment.
