Head Bolts . Z-series engines use head bolts designed for the A-series engines. For more details on the specific bolts, see Head Bolts. Since the Z24 has common head gasket problems, it is recommended to re-torque the head bolts every 2 years/24000 miles. The smaller engines need no retorquer if equipped with '13' bolts.

Nissan Automobiles. As early as 1996, Nissan has already been involved in building fuel-cell vehicles in preparation for an industry that will rely heavily on alternative energy. Before that however, Nissan became a household name for building memorable vehicles such as the Datsun Fairlady 1500, the Z-Car, and the all-wheel drive called the GT-R.
