International trade in services is subject, in general, to lot of restrictions. The General Agreement on Tariffs and Trade (GATT) which has been trying to liberalise the trade in goods does not cover the service. The industrialised nations, like the U.S.A. and the members of the EEC have been strongly arguing for the inclusion of trade in services in the GATT negotiations.

International Trade in Services: Meaning, Characteristics

...

The Regulatory Assessment on Services Trade and Investment (RASTI) toolkit offers a practical guide to assess the impact of services regulations. It lays out a methodology for identifying restrictions to trade and investment in services within a country, assessing the impact of those restrictions, and developing suitable regulatory alternatives.

Trade in Services - World Bank

The World Trade Organisation plays the primary role in regulating international trade in goods, services and intellectual property. Traditionally, international trade law and regulation has been analysed primarily from the trade-in-goods perspective. Services are becoming an important competence for the WTO.

The World Trade Organization and Trade in Services | brill

Trade in services drives the exchange of ideas, know-how and technology, although it is often restricted by barriers such as domestic regulations. All OECD countries compile their data according to the 2008 System of National Accounts (SNA).

As phase two of the AfCFTA is negotiated, services commitments and priorities also need to be considered in the context of competition, investment and intellectual property. Regulation can be a critical barrier to services trade - whether it is too much, too little, discriminatory or otherwise trade-unfriendly.

Trade in services and the AfCFTA: No service is an island

...

The General Agreement on Trade in Services (GATS) is the first and only set of multilateral rules governing international trade in services. Negotiated in the Uruguay Round, it was developed in response to the huge growth of the services economy over the past 30 years and the greater potential for trading services brought about by the communications revolution.
