Sample Latex Document

When you are beginning to write a LaTeX document, you really do not need to learn a new programming language or hundreds of commands. Basically you begin so that you get a simple template like the sample file below. Then start writing your own text inside the sections. The body text of paragraphs is simply plain text.

Writing a Simple LaTeX Document

After typing in the commands to LaTeX (which are the instructions preceded by the backslash character) and the text of a sample paper, save them in a file with a name ending in .tex, like paper.tex. You can then type latex paper.tex and the typesetting program will run on your file of commands, producing a file ending in .dvi , which is the file that can be sent to a laserprinter (like valkyr , in Margaret Jacks Hall).
