Biocentrism (theory of everything) from Greek: βίος, bios, "life", and κέντρον, kentron, "center" — also known as the biocentric universe — is a theory proposed in 2007 by American scientist Robert Lanza, which sees biology as the central driving science in the universe, and an understanding of the other sciences as reliant on a deeper understanding of biology.

### Robert Lanza, M.D. - BIOCENTRISM

Rethinking Time, Space, Consciousness, and the Illusion of Death Biocentrism shocked the world with a radical rethinking of the nature of reality. But that was just the beginning. " Beyond Biocentrism is an enlightening and fascinating journey that will forever alter your understanding of your own existence."

### What Is It Like After You Die? - Robert Lanza - BIOCENTRISM

Biocentrism is sometimes the view or belief that the rights and needs of humans are not more important than those of other living things. This is not that theory of philosophy; it is something entirely different. The theory postulated by Lanza is that nothing exists outside of consciousness and life. Biology is the great creator.
